

INFLEX IS THE NEW STANDARD FOR PROFESSIONAL RETAIL MONITOR SOLUTIONS

Our new premium INFLEX design product line comes from Sweden's fine industrial product designers. Aluminum was deployed all around for the frame and casing. The clean all-in-one design is the natural evolution of our products and maintains INSTORESCREEN's no compromise requirements for durability, stability and flexibility. This product works as a standalone monitor or a fully featured Digital Signage solution with the optional INFLEX system module. These modules are available in a range of configurations to support your specific project needs.
